## CLOSED BY STRIKERS

Operations at the Butler Washery Are  
Forcibly Interrupted.

CONTINUOUS FIRE DURING NIGHT.

It Is Announced That Union Has  
Positions For Three Hundred  
and Fifty Miners in the  
Soft Coal Fields.

Wilkesbarre, Pa., Aug. 23.—The Butler washery and the Dodge colliery of the Delaware, Lackawanna and Western company, in which operations had recently been resumed, were closed by striking miners. At the Butler washery the men marched out in a body. It is asserted by the men that all through the night strikers in ambush kept up a continuous fire on the washery and the shed in which the workmen slept. Not being afforded sufficient protection, the men say, they decided to suspend operations.

Eighty workmen had been employed at the Dodge colliery and the strikers prevailed upon them to leave the workings.

President Nicholls of this district issued a card saying that the union has positions in the soft coal fields for 350 miners.

### Troops Will Stay.

Tamaqua, Pa., Aug. 23.—Acting upon the advice of General Gobin, the officers and men of the First battalion of the Twelfth regiment, stationed here, sent to Shenandoah for their full equipments and their personal effects. This would indicate that General Gobin has decided to keep a detachment of troops in the Panther Creek valley for some time. The Mine Workers sent petition to Governor Stone asking that the troops be recalled. It is rumored here that the Lehigh Coal and Navigation company is preparing to mine coal under the protection of the troops. The officials refuse to affirm or deny the report.

### For American Ships.

New York, Aug. 23.—Referring to the fact that the construction of the Panama canal will necessitate the transportation of hundreds of cargoes of construction material, food supplies for workmen, etc., the Journal of Commerce says: "Panama and Colon are foreign ports, and there is nothing therefore to prevent foreign shipowners from competing at low rates for carrying material. It is said by a representative of the Panama canal interests that the material required in the construction of the canal will certainly exceed \$10,000,000, in addition to food supplies. This material will consist very largely of cement, granite, lumber and machinery. The lumber will undoubtedly come largely from Oregon and that section of the country and will not be a matter of much concern to ship owners on the Atlantic ocean, but in the case of cement and machinery and stone, the items will be of great importance, and communications have already been sent to the government at Washington with a view to seeing if some way cannot be decided upon whereby this enormous carrying movement may be confined to American ships."

### Sultan Is Willing.

Constantinople, Aug. 23.—Through the medium of Izze Bey, one of his secretaries, the sultan sent a friendly message to the United States minister, John G. A. Leishman, assuring him that all pending claims of the United States would be complied with and begging the minister to resume his visits to the port. In consequence of these fresh assurances Mr. Leishman visited the grand vizier, Said Pasha and the minister of foreign affairs, Tewfik Pasha. Mr. Leishman and Robert S. McCormick, the United States ambassador to Austria-Hungary, will attend the salamlik and will probably have an audience with the sultan.

### An Advance Offered.

Chicago, Aug. 23.—President J. M. Roach of the Union and Consolidated Traction companies offered the street car men in his employ a horizontal advance of one cent an hour. He also agreed to abolish his benevolent association, generally known as Union No. 2 and to hire union men exclusively, if the union would sign an agreement covering two full years. The men decided to settle the matter by a referendum vote of all members of the union. The vote will be taken next Monday.

Trenton, N. J., Aug. 23.—The Mina Grande Consolidated Mining and Milling company, capital \$5,000,000, was incorporated. The company is authorized to do a mining business. Incorporators: Frederick Fambach, P. J. Rooney and J. G. Switzer, all of New York.

## WORTH A FORTUNE.

Supposed Gypsies Detained by Immigration Authorities.

New York, Aug. 23.—Elias J. Ivnovich, with his wife and eight children, were held over night by the immigration authorities at Ellis Island and this in spite of the fact that he has with him \$25,000 in gold coin and \$10,000 worth of jewelry.

When the members of the family landed from the freight steamer *Byron* it was suspected that they were gypsies, and until they could prove their good intent in coming to this country it was decided to look into their story. When it was seen that they were possessed of wealth that fairly took the breath from the examiners it was too late to do anything more in the matter, but it is probable that they will be released. They are Servians and will live in this country.

Elias, the head of the family, is a man about 50 years old. He is more than six feet tall and with his impressive bearing and picturesque attire could well pose for a picture of the ideal bandit. About his waist beneath Persian lamb coat he wears a belt containing Spanish doubloons three deep. His watch chain is of massive silver studded with turquoise and of large size.

No less gaudy attire was his oldest son, who likewise wore a belt of doubloons. His wife's ears held gold ear rings near two inches long, and in the ears of his pretty daughter were large pearls.

### Many Commissions Granted.

Wilkesbarre, Pa., Aug. 23.—It is estimated that the coal and iron police men now guarding the idle collieries in four counties of the anthracite region number 5,000. The employment of many special guards has necessitated an expenditure by the companies to date of \$1,000,000. Besides paying the special policemen a daily wage, the companies supply them with food and lodging. Every coal company in the anthracite district and nearly every washery has its quota of police. The commissions are all granted by Governor Stone, at Harrisburg, and cost the companies \$4 for the granting and recording of each commission. Of this sum \$2 goes to the state and \$2 to the county.

### Trusts Condemned.

St. Paul, Aug. 23.—Although the discussion of the trust question and the later action of the resolutions committee in ignoring the question had been regarded as the end of consideration of this problem before the Trans-Mississippi Commercial congress, such proved not to be the case. When the congress was called to order for the closing session, J. A. Gardner of St. Louis secured the floor and moved the adoption of resolutions which he presented. They slightly differed from the Wethmore resolutions of earlier in the session and precipitated another lively debate. By a vote of 20 to 19 the resolutions were adopted.

### Campon's Successor.

Paris, Aug. 23.—The press was informed at the foreign office that the successor of Jules Campon as French ambassador at Washington had not yet been appointed, but that M. Jusserand, the French minister at Copenhagen, had been selected for the post. M. Jusserand speaks English, and is the author of several English books. His wife, who was a Miss Richards, is an American and has resided for a long time in Paris. M. Jusserand has been prominently connected with the movement for the development of athletic sports in France.

### Testing Butter.

Chicago, Aug. 23.—William D. Collyer, United States inspector of dairy exports, and Professor G. L. McKay, professor dairying in the Iowa state agricultural college at Ames, will complete the work of inspecting butter for the United States. Mr. Collyer declined to say what his report would contain. Mr. Collyer and Professor McKay, for six months have been testing butter from all parts of the country.

### Coal Seized as Contraband.

Port-au-Prince, Hayti, Aug. 23.—The Cuban steamer *Lauenberg*, belonging to the Cameron Steamship company, which sailed from New York Aug. 15, arrived here with 250 tons of coal intended for the *Firminist* gunboat *Crete-a-Pierrot*. The government seized the coal declaring it to be contraband of war destined for the revolutionaries and claimed that it must be sold in favor of the sender.

New York, Aug. 23.—According to report arrangements are being perfected for a combination of malleable iron foundries, with a capital of something like \$15,000,000 to \$20,000,000. It is said that a conference of the different parties to the deal was held recently in Chicago, and that the proposition was received with favor by several important concerns.

## PERMISSION GRANTED

Premier of Newfoundland Wins a Point  
In Bond-Blaine Convention.

WILL SEEK TO HAVE IT RATIFIED.

After Twelve Years of Persistent  
Effort the Statesman Is Authorized  
to Reopen Negotiations  
at Washington.

London, Aug. 23.—Sir Robert Bond, the premier and colonial secretary of Newfoundland, sailed from Liverpool for Montreal on the Allen liner *Pretorian*, on his way to Washington with full power from the imperial government to reopen the negotiations, through the British charge d'affaires, for the ratification of the Bond-Blaine convention.

The Bond-Blaine convention was a special agreement entered into about 10 years ago between the late James G. Blaine, then secretary of state, and the premier of Newfoundland. The convention on the part of Newfoundland granted to United States fishermen considerable privileges in regard to purchasing bait, and largely reduced the duties on a considerable class of American imports into Newfoundland. The United States, on its side, opened its markets to Newfoundland fish and raw products, and confirmed the privilege of transportation of fresh fish in bond to the United States markets.

The Newfoundland premier has declared himself in favor of free trade with the United States. His success in obtaining imperial sanction for his present American visit is the culmination of 12 years of persistent effort, and only this week was he able to convince the government of the injuries done to Newfoundland by the non-ratification of the convention and secure its consent to the resumption of the reciprocity negotiations.

The premier will lose no time in getting to work and the British charge d'affaires will communicate with the state department shortly after his arrival in America.

### Confessed to Nothing.

Chicago, Aug. 23.—The Chicago police bent their energies toward devising some means by which to land in their drag net the fugitive William Bartholin, charged with the murder of his mother, Mrs. Anne Bartholin, and his sweetheart, Minnie Mitchell. Circulars containing a more recent picture of the missing man than has yet been issued by the department are being prepared and will be sent broadcast over the country. Edward Counselman, the intimate friend of Bartholin, who was held by the coroner's jury for complicity in the murder, was removed to the county jail. Inspector Hunt made several efforts to induce the prisoner to talk, but they were fruitless. Counselman was greatly agitated and cried frequently, but would confess to nothing.

### President at New Haven.

New Haven, Conn., Aug. 23.—President Roosevelt entered upon his New England tour and New Haven was first point visited by the nation's executive. The yacht *Sylph* bearing the president, was sighted off New Haven harbor just before 1 o'clock. Half an hour later the vessel was lying alongside Belle dock, having made the run up New Haven harbor to the accompaniment of universal salutes. The president acknowledged the salutes from the yacht's quarter deck. He came ashore at 1:20 p.m. at a special landing constructed for the occasion. Mayor John P. Studley and a committee from the board of aldermen greeted the guest.

### To Save the Club.

New York, Aug. 23.—Members of the well-known Knickerbocker Athletic club have decided to take active steps to save the organization from going to pieces and to that end have authorized President G. S. Whitton to name a committee of 10 to confer as to the plan of action to be followed. The idea prevailing now is to change the club from a proprietary one to a members' organization. This step is a direct result of a suit brought by Adrian Iselin against John H. Ballantine and John D. Adams to foreclose a mortgage of \$400,000 on the building occupied by the club.

### Gift From the Queen.

London, Aug. 23.—Miller Rees Hutchinson of New York city, who sailed for New York on the steamer *Celtic*, was summoned to Cowes and received from Queen Alexandra a special coronation medal. Mr. Hutchinson had been treating the Queen for deafness, but her majesty ascribed the gift to her recognition of Mr. Hutchinson's services to deaf mutes in London, in whose welfare she is greatly interested.

## TWO VESSELS Can Be Spared From the Venezuelan Coast.

Washington, Aug. 23.—The state department is in receipt of a cablegram from Minister Bowen, at Caracas, saying that he could spare two of the war vessels now in Venezuelan waters. This information is taken to mean that the situation in Venezuela has improved so far that little danger now threatens American interests.

The fact that two of three American warships now in Venezuelan waters can be spared will permit the navy department to dispatch the *Marietta* to Colon, to which place she was proceeding when in response to Minister Bowen's call she was diverted to Venezuela. The maintenance of an American warship on the gulf side of the isthmus is necessary to insure railway transit across the isthmus. The *Topeka* will be ordered north immediately and she will be followed by the gunboat *Machias* as soon as Commandant McCrea considers it safe for him to leave Cape Hayti. The latter ship has had a long siege in tropical waters, having been stationed at Colon for some time before she went to Hayti. The departure of these two ships for home will leave the *Cincinnati* in Venezuelan waters and the *Marietta* on the coast of Panama to look after American interests.

### About the Code Bill.

Columbus, O., Aug. 23.—Hon. Clement L. Brumbaugh of Greeneville, representative from Darke county and leader of the Democratic minority in the house, says the governor's code for the government of the municipalities of Ohio will be passed by the house, substantially as introduced in that body. Governor Nash has yielded to the general demand that the line of division between cities and villages in the municipal code be left unchanged. The figures 10,000, consequently, have been stricken out and 5,000 inserted in their place. The governor denied with emphasis a report that he had cut out of his bill all reference to the election laws and that he made other changes in the draft, which is now complete. "The only change I have made," he said, "is to fix the dividing line between cities and villages at a population of 5,000 instead of 10,000."

### Starved to Death.

Baltimore, Aug. 23.—Mrs. Sarah Schumacher, aged 70 years, was found dead in her room and her daughter Martha, was wandering in a half crazed condition about the lower floor of their home. Coroner Jones said that Mrs. Schumacher had died from starvation. Martha Schumacher said she and her mother were too proud to tell any one of their impoverished condition and that for several days neither had had a meal. It is said the Schumachers have well-to-do relatives in Philadelphia and Virginia. Her health had rendered Martha, the sole support of her widowed mother, unable to work for several weeks.

### Admiral Von Diederichs Resigns.

Berlin, Aug. 23.—Admiral Von Diederichs has resigned his post as chief of staff of the navy. He has been succeeded by Vice Admiral Buechel. Admiral Von Diederichs is the officers who, as vice admiral, was in command of the German squadron of five cruisers in Manilla bay at the time Commodore, now Admiral Dewey, was operating against the Spaniards.

### Search Resumed.

Russellville, Ky., Aug. 23.—The search for the murderer of Miss Zada Vick was resumed. Practically all business here is suspended and nearly the whole population of the town and county is participating in the man hunt. There is no abatement of the excitement and no relaxation in the determination to run down the man who is guilty of the crime.

### Found Their Bodies.

Grindelwald, Switzerland, Aug. 23.—The bodies of the Londoners named Fearon and those of two guides who started Aug. 1 to ascend the Wetterhorn, and who did not return, have been found by a search party near the summit of the mountains. Two of the party were apparently killed by lightning and two met their deaths by falls.

### Struck by a Tornado.

Hemingford, Neb., Aug. 23.—A tornado, accompanied by a terrific rain and hail storm, passed along the Niobrara river, eight miles north of here. It passed through a thickly settled country and is thought to have done a great amount of damage.

### Cincinnati, Aug. 23—Young Corbett, with his manager and trainers, arrived and took quarters temporarily in a hotel. In the afternoon he went to look for training quarters. It is probable that he will choose the place on Price hill where Jeffries was in training.

## FOG ENVELOPS OCEAN.

Elements Favor the Squadron Under Commander J. E. Pillsbury.

NO SIGN OF THE IMAGINARY FOE.

Rear Admiral Higginson and His Naval Advisers Continue to Defend New England Coast in Successful Manner.

Rockport, Mass., Aug. 23.—Those participating in or watching the war maneuvers of the navy found things favorable to the squadron under Commander J. E. Pillsbury, which is trying to make a landing on the New England coast between Portland, Me., and Provincetown, Mass., while Rear Admiral Higginson and his vessels defend the seaboard. A fog so thick that the water of the harbor could not be seen from naval headquarters shrouded Cape Ann and the adjacent ocean, yet for miles in the bright clear atmosphere objects at sea could clearly be seen.

When the sun came up the atmosphere was as clear as it could be, and extended observations were made from all signal and lookout stations. Each reported that all was well and that there was no sign of the enemy. The receipt of these early messages interrupted the quiet which had prevailed at the naval headquarters here since 2 a.m. unbroken save by one report received from Portland at 3:45 a.m. This report was like most others sent in, that all was quiet. The report added that scout boats were sighted outside the harbor.

It was not long after sunrise that the fog set in. It was a dense cloud and first impenetrable to the eye beyond a distance of 10 or 12 feet. Just before 9 o'clock there were indications that the sun was burning through the mist on shore.

Aside from the fact that the *Kearsarge*, at least, was still at anchor off this place, little was actually known here as to the positions of the various ships of Admiral Higginson's squadron. Scouts had been reported off Portland. The cruiser *Brooklyn* skirted the end of Cape Cod early in the forenoon, and went across to Plymouth. Thus both ends of the line of defense were said to be well guarded, and as the naval experts here felt reasonably sure that the *Alabama* and *Massachusetts* were with the *Kearsarge* off Straitsmouth Point, the center was thought to be safe. The station keepers here have been advised that the lookout line has been extended to Sankaty head on Nantucket, where the wireless telegraph station is located. From there all incoming ships will be queried as to whether or not they have seen any of Commander Pillsbury's ships and the results of these investigations will be signalled to the scout boats or the land stations.

By 11 o'clock the fog had lifted and the battleships were seen in their usual positions. Observation in the distance, however, was impossible owing to a haze which hung low over the water. All the signal and lookout stations reported during the forenoon, showing that the message system was intact. All the scout boats were heard from before 11 o'clock, either at the station here or on board the *Kearsarge*.

It is learned that the rules of the maneuvers in which the vessels are engaged permit the destruction of the ships of the opposing squadron and it appears that the fear that Pillsbury may dash in and "dislodge" one of his vessels in one reason why the defending fleet is kept so compact by Admiral Higginson.

### Data Collected.

Rome, Aug. 23.—The vatican authorities have completed the collection of documents referring to the Philippines question for the use of the apostolic delegate at Manila and it is conjectured that his appointment is imminent. A complete history of the negotiations of the subject of the friars' lands is given including a summary of the voluminous report of Mgr. Chappelle, the former papal delegate in the Philippines, and the full text of the notes exchanged between Governor Taft and the vatican.

### Dr. Wood Declines.

Cleveland, Aug. 23.—Rev. Dr. Morgan Wood, pastor of Plymouth Congregational church, who was selected as the man to be nominated by the Democrats in opposition to Hon. Theodore E. Burton for representative in congress from the Twenty-first Ohio district, sent a letter to Mayor Johnson declining to become the candidate. The change from a ministerial life to that of a possible congressman, Dr. Wood declared, was too great for him to assume at this early period in his life.

HENRY W. LAMBE, in his testimony before the U. S. Industrial Commission said, among other things:

The tariff trusts sell their goods abroad cheaper than they do here, and this they are enabled to do by the protective tariff. If the goods are imported into this country, a duty must be paid which enhances the price; the trusts are therefore able to a certain extent to extort from the consumers here more than they can secure if they wish to sell abroad. They desire to sell abroad, and they therefore sell abroad at a much lower price than to consumers in this country.

### WHAT SERVILITY TO THE TRUSTS.

The attitude of the administration, as outlined by Secretary Shaw in his Vermont speech, seems to be that of admitting the evil while refusing the remedy. He did not deny that there are "inaccuracies and inequalities" in the present tariff. Valiantly he affirmed that the Republican party never attempts to defend an unfair tariff schedule. It is true that it does not, but it does do, if such were possible, worse, when it says that the tariff must be let alone. It falls back to the impotent position of Mr. Shaw, who says, in effect and almost in words: "I confess that many of the existing duties ought to be modified. But if we should succeed in changing or repealing some of the worst ones there would remain countless others nearly as bad. And if we should pull out one unjust schedule, its beneficiaries threaten to tumble the whole edifice down about our ears. So I ask you, is it wise to talk about doing anything at this time?" Did any enemy of the Republican party ever accuse it of being more helplessly bound to the trusts who are the beneficiaries referred to by Mr. Shaw, than does Mr. Shaw himself? Will the American people longer submit to the domination of a party which through its own speakers admits such a servile submission to the beneficiaries of unjust schedules as this? Is it not time that something should be done? If they are strong enough now to terrorize the Republican party out of doing what it knows and confesses to be its duty when will they be weaker than now? One of these beneficiaries, the steel trust, made \$140,000,000 last year? When will it become weaker at that rate? The position of the administration is simply this: "We know that the tariff ought to be revised, but we are afraid to do so." What a spectacle for the American people!

### ALL BUT ONE.

Democratic State Executive Committee  
Counting on Ten Congressmen From Kentucky in November.

[Courier-Journal.]

It is learned that Kentucky Democrats have notified Chairman Griggs, of the Democratic National Congressional Committee, that the Democrats will gain two Congressmen in the State this fall, and will elect ten of the eleven members. This information is said to have been given to the National Committee by Kentucky's present Democratic Representatives. According to this, the National Committee is relying on Mr. John S. Rhea to defeat Mr. McKenzie Moss in the Third district, and Mr. Swager Sherry to defeat Mr. H. S. Irwin in Louisville. The Democrats concede only the Eleventh district to the Republicans.

If the hopes of the Democrats are realized, Kentucky's delegation in the new Congress will be:

First District—Ollie M. James.  
Second District—A. O. Stanley.  
Third District—John S. Rhea.  
Fourth District—D. H. Smith.  
Fifth District—Swager Sherry.  
Sixth District—D. Linu Gooch.  
Seventh District—South Trimble.  
Eighth District—George G. Gilbert.  
Ninth District—James N. Kehoe.  
Tenth District—J. N. Hopkins.  
Eleventh District—Vineet Boering, Repub.

### The Ruling Passion Strong in Death.

Major Hutchins is authority for the statement that at the charge on San Juan Hill, Gen. Wheeler, while madly rushing to the front, cried out, "Give the damned Yankees hell, boys."

OUR WAY OF

# SELLING CORSETS

Is to suppress all sensational statements—to deal in facts, not in figures of speech. We substantiate every word we put in type. We aim to sell corsets as if we sold nothing else. THE P. N. CORSETS are unexcelled in three great points—they Bend Freely, Fit Snugly, Wear Economically. The stays are of high grade material and each is moulded to fit the curved lines of the body, making the corsets fit with a comfortable nicety that requires no "breaking in." We have twelve different styles of the P. N. which assures fitting any figure whether slight or full and long, short or medium waist. The corsets are nearly all straight front, but we have the less pronounced styles for those who want them. If you prefer a light or heavy corset you can easily choose as we have many models in both coutille and batiste. See them! That's better than reading their good qualities.

Better corsets at better prices can't be found.

### IMPORTANT LAW

Is This Little Act Passed by the Last Legislature Concerning Breaches of Trust.

[Louisville Post.]

With the meeting of the fall terms of the Kentucky courts law will go into effect that promises to work the most sweeping change in the criminal procedure in the Kentucky courts that has been known since the right to testify was granted the blacks. Strange to say, that while the new law is one of the most important that was ever placed upon the statute books of Kentucky, it has, up to this time, escaped notice, and it is probable that few of the Prosecuting Attorneys in the State know of its existence. The new law may justly be entitled a universal embezzlement law, and at one blow does away with all the technicalities that heretofore often saved defaulters from the penitentiary. The old form of breach of trust is done away with; any man that appropriates money from another can be sent to the penitentiary, as much as if he stole from a railroad, a bank, or any other corporation. Nothing like this law was ever heard of before in Kentucky, and, according to the opinion of experienced lawyers, no such comprehensive or Draconian law can be found in any State in the United States.

The new law is an innocent looking affair, and is not over a dozen lines in length. It was introduced early during the last session of the General Assembly and slipped unnoticed through the various stages. In the press of apparently more important business it seems never to have been discussed at length; at least, if it was, no report of its discussion was ever made public, and few people in the State grasped its real meaning.

The new law can be found on page 151 of the Acts of 1902, and is entitled, "An act to make it unlawful for a person to fraudulently dispose of the property of another, and to provide a punishment therefor." It reads as follows:

"Be it enacted by the General Assembly of the Commonwealth of Kentucky:

"Section 1.—That any person who shall sell, dispose of or convert to his or her own use, or the use of another, any money, property or other thing of value, without the consent of the owner thereof, shall be punished by confinement in the penitentiary for not less than one nor more than five years, if the money, property or other thing of value so sold, disposed of or converted to his or her own use be of the value of \$20 or more; or be confined in the county jail for not less than one nor more than twelve months if the value be less than \$20.

"Approved March 21st, 1902."

This law went into effect April 21st, or near the close of the spring term of the various courts. No attempt was made to apply it, therefore, but the various Circuit Judges will probably charge the grand juries this fall with the law.

Judge Andrew Barnett said this morning in regard to the new law: "I happened to stumble upon the law a few days ago while reading the proceedings of the last General Assembly, and was at once struck by its importance and by the fact that it had heretofore escaped general notice. It is difficult to overestimate the importance of this law. Under it there is no such thing as breach of trust. Any lawyer who fails to turn over his client's money can be sent to the penitentiary just as a bank thief. Any guardian of the property of a minor can be sent to the penitentiary for misappropriating the money of the estate, and this is a great step forward, and is enough of itself to command the law. Any Sheriff, Constable, Magistrate, Insurance agent, executor or what not, any one of the numerous individuals who have escaped punishment in the past by pleading breach of trust, can be punished by penal servitude. In all my law reading I have never encountered so radical a law. It is, however, a good law, and will command itself to honorable practitioners."

Misses Mary Louise and Clara Russell Nute left for their home at Norwood, Cincinnati, this morning after spending a few weeks with relatives in this and in Fleming County.

## "The Elks Fair"

Will doubtless bring one of the largest crowds Maysville ever had the honor to entertain. Hechinger's store has for years enjoyed the distinction of being headquarters for the "boys," old and young.

Again we invite all visitors from near and far to make our "place" their own. Your parcels and packages you do not care about lugging around with you will be taken care of. Whilst you are in town and care to look at what we have in store for you in the way of the greatest line of Clothing for all ages, we will show you with much pleasure.

In view of the crowds that will be with us, we have arranged to have our Fall Clothing in the house in time to show them to you. You will see none like ours elsewhere. With us you can choose from the celebrated houses of Stein Bloch Co., L. Adler Bros. & Co. and Garson Meyer & Co. If you do not know the kind of Clothing these manufacturers turn out ask other clothiers.

During the week you may need Shirts, Collars, Ties, etc. We have an immense variety of all these.

Our Fall Shoes made by Hanan & Son and W. L. Douglas are in. WE WOULD LIKE FOR YOU TO LOOK AT OUR MEN'S SHOES.

"A full line of Dress Suits for rent."

Be sure and call on us. We will be fully as glad to see you socially as we will be on business.

## D. HECHINGER & CO.,

THE HOME STORE.

## Geo. Frank and Pergy Archdeacon

Start in the Clothing business for themselves, in the building on Second street opposite Bank of Maysville. Will be ready for business about Sept. 1st. Fair visitors and friends are invited to come, and make our store your home. Bring your dinners, we have plenty room for you to eat, and not be annoyed, so come.

### NARROW ESCAPES,

The Result of Reckless Fair Goers—Three More Accidents Friday Afternoon.

Mr. James T. Hall, of Hillsboro, had a narrow escape from instant death at the entrance to the fair grounds yesterday evening. The C. and O. train was pulling out for this city, and as Hall ran to catch the train, he tripped on the wires connected with the switch, falling headlong towards the track. Fortunately the left hand only reached the rail, the wheels passing over three fingers, necessitating amputation at the first joints. Mr. Hall was taken to Dr. Reed's office where the operation was performed by Drs. Adams and Brand. Hall is a brother of young Hall who was killed by a C. and O. train at Lexington street a few years ago.

Ed. Kelly, hailing from Springdale, was struck by an electric car at the west end of the fair grounds Friday afternoon but fortunately escaped without serious injury. Motorman Mason was in charge of the car. Kelly stepped out from behind the infirmary ground fence right in front of the rapidly approaching car, and his escape from instant death or serious injury was almost miraculous. Mr. Mason had no time whatever to stop the car. Kelly was knocked from the track, and at first it was thought he was badly hurt. The jolt sobered him up, and after having his injuries dressed by Dr. Taulbee he was able to return home.

A young country man named Miller insisted on riding on the running board of an electric car Friday afternoon. Near the fair grounds his hat was knocked off by one of the poles. After recovering it

and taking a fresh drink of liquor, he again boarded the car, but was shortly afterwards brushed off by another pole, escaping uninjured. Policeman Ort then took him in charge.

The Texas fever has broken out among cattle in Shelby County.

The district Endeavor convention will be held in this city Oct. 3rd, 4th and 5th.

Rev. H. E. Gabby will preach at the Aberdeen Baptist Church to-morrow afternoon at 3 o'clock.

The Flemingsburg Telephone Company wants 150 poles for the line between that city and Maysville.

The Y. M. C. A. men's meeting to-morrow afternoon will be held at 4 o'clock in the association parlors, Rev. F. W. Harrop leader. All men invited.

Rev. Dr. Molloy has been detained at Owensboro, and there will be no services at the Central Presbyterian Church to-morrow, except Sunday school at 9:30 a.m.

Russell Hall, charged with the murder of James Markwell at Grange City and who escaped from the Flemingsburg jail some months ago, was captured this week at Fort Dodge, Iowa.

First Baptist Church—The pastor Rev. Dr. Boyet will preach at 10:45 a.m. to-morrow on "The Highway to Heaven." At night Dr. Boyet will preach at the union service at Washington.

The watch lost by Miss Gunn at the fair grounds Thursday fortunately fell into honest hands and was returned Friday to the owner, as a result of the advertisement in the BULLTIN. It was found by a Mrs. Slack or Miss Slack.

### THE ELK'S FAIR.

The Largest Crowd of the Week Out Friday. List of the Successful Exhibitors.

One of the largest crowds ever on the Maysville fair grounds was out Friday. The attendance was variously estimated at from 5,000 to 8,000. The attendance throughout the week has been unusually good and the fair of 1902 can be put down as a success financially if to-day's crowd keeps up with the attendance on previous days. There was a fine display of harness, saddle and coach horses, and of Shorthorn cattle. Mr. Alex. Duke, of Mayslick, was awarded all the premiums on cattle. His herd of Shorthorns is probably as fine as can be found anywhere. The premiums on horses were awarded as follows:

Harness mare, four years and over, \$10; C. D. Stroud, Maysville.

Harness mare, three years and over, \$10; Fagan Bros., Brooksville.

Harness mare, two years and over, \$8; W. S. Dryden, M. Olivet.

Harness horse, mare or gelding, \$20; C. T. Donnell, Carlisle.

Coach mare, \$10; C. D. Stroud, Maysville.

Coach gelding, \$10; Wm. McClelland, Mason County.

Coach team, mare or geldings, \$20; Baldwin Cartmell, Maysville.

Saddle stallion, four years and over, \$10; James L. Dornell, Carlisle.

Saddle stallion, three years and over, \$10; Chas. Biggers, Mason.

Harness horse, mare or gelding, first premium, \$25; Dr. W. H. Hord, Orangeburg; second premium, \$10; C. D. Stroud.

There were three entries in the boys' riding match, Masters Thomas Wallace and Frank Worthington, of this city, and Master James Poe, of Augusta. The match was for boys under fourteen. Young Poe and Master Worthington had the advantage of Master Wallace in having fine riding horses. Master Worthington has carried off many premiums in late years, and he was awarded the prize yesterday, a Hechingen & Co. \$5 suit of clothes.

The 2:35 trot scheduled for the day was declared off. In the automobile races, there was a two-mile dash, followed later by a mile run. The two-mile run was won by Mr. Graham, of Chicago, who finished the two miles in 3:23. Mr. Fischer won the mile dash in 1:40.

The fair closes to-day.

#### Closing Union Service.

The closing union service of the season will be held at the Christian Church to-morrow evening at 7:30 o'clock. Rev. Dr. Molloy was to preach the sermon, but he has been detained at Owensboro and some one else will take his place, probably Mr. Moss. At the morning service at this church the minister R. E. Moss will preach. Union meeting of young people's societies at 6:30 p.m.

Johnnie Heilmann, the star short stop of the crack Maysville ball team in 1896, is now with the Beaumont (Texas) club and will get a position on the police force of that city at the close of the season.

It was Miss Sophia Schatzman, and not Master Schatzmann as stated Friday, who was awarded the premium for the pencil drawing of the map of Kentucky at the Elks fair.

## AN INVITATION!

### Watch For These Frauds.

[Huntington Herald.]

Nine men dropped into Huntington Thursday morning, all of them possessing cards like the following:

"I Am Deaf and Dumb."

"Remember the Poor and Needy."

"God Loveth the Cheerful Giver."

"He That Giveth to the Poor Lendeth to the Lord."

"Please Help Me."

Throughout the day the men circulated over the city and plied their profession for all it was worth. Much money seems to have come to them, and later in the evening they were drinking beer in a resort when a dispute arose and the nine mutes engaged in a free-for-all scrap that landed them in the hands of the police. During the progress of the scrap the mutes engaged in profanity of a varied character, having suddenly recovered their voices in the excitement of the moment. They are now under the tender care of City Jailer Mark Stevenson.

The Eworth Leagues, Baptist Young Peoples' Union and all the Endeavor societies of the city are cordially invited to meet with the Endeavor Society of the Christian Church to-morrow evening at 6:30 o'clock.

The Western Standard company plant at Gas City, Ind., has been placed in charge of a Chicago cereal manufacturer and a test made of a secret process of manufacturing paper from oat hulls. The inventor has been working on the process for three years, and this is the third test he has made, the two former tests not being satisfactory. This one is said to have been a success, and an excellent quality of paper was made. The mill was closed to all except the workmen necessary to operate it, and the work was done secretly.
